DESK TOP COMPUTER FURNITURE

Double Roll Top (DRT) Our "Desk Top" computer is designed to fit your computer in the minimum amount of desk space. Keyboard slides conveniently into its own shelf space under CPU. Tambour door closes in front to deter unwanted contaminants. Back door is vented and screened for air circulation. Excess cord length and/or modem unit may also be stored inside of back door. Our "DRT" is available with locking tambour (OA 101) and may be secured to work surface (OA 102) to deter theft.

Double Roll Top-B (DRT-B) This includes bottom shelf on "DRT" necessary for bolting to work surface.

Double Roll Top-KBT (DRT-KBS) This model has Keyboard Shelf that slides out. Tray has positive in/out stops and comes with velcro strips to hold the keyboard in place.

Single Roll Top (SRT) This unit is the same design as our Double Roll Top. The difference is we leave out the back door for a cost savings.

Printer Stand (PS) Our "Desk Top" printer stand is available in two sizes. Our Medium stand has a 14" deep x 18" wide surface for the printer and a 14" deep x 24" wide surface is standard on our larger stand. Custom widths are available on request.

Keyboard Tray (KBT) This tray is designed to help you regain desk top space. Keyboard may be secured to tray with velcro strips. Tray slides under CPU when not in use. Tray also will suspend off edge of desk, expanding the working surface of a narrow deck. Inside dimension: 21" x 2½".

Keyboard Stand (KBS) Same size and function as our "KBT" except for the absence of sliding tray. Provides a space under CPU for keyboard. Inside Dimension 21" x 3".

Optional Accessories: (OA 101) Our brass plated lock secures tambour door in closed position. Lock comes installed.

(OA 102) Our work surface bolting system includes everything needed to bolt "DRT" to work surface.

EXECUTIVE AND STANDARD CONSTRUCTION: We offer two types of construction for our "desk top" computer closure line. Our **EXECUTIVE CONSTRUCTIONS** is done with solid hardwood sides and tambour doors. Extra steps are taken to provide our custom appearance and true quality. Our **STANDARD CONSTRUCTION** is hardwood plywood sides and tambour doors. These models are a simplified version of our executive "desk top" concept at our most reasonable prices.

Our "desk top" computer furniture aids are designed carefully to fit a number of popular computers and printers. Some of these are IBM PC & XT, Fujitsu Micro 16, Epson QX-10, Dimension, Morrow, Columbia, Etc.. On request, we will custom adjust our cabinets to fit others.

COMPUTER WORKSTATIONS

50" Computer Table (CT-50) All hardwood construction and durable attractive design. Sturdy Mortise/Tenon joined leg sets are the foundation of this durability. Strong plastic (KD) Knock Down fasteners make re-assembly easy. Basic table can be ordered alone or with a variety of add-ons.

Dimensions: 50" wide x 28" deep x 27"/30" high (specify height)

38" Computer Table (CT-38) Same durable construction as our 50" computer table. Basic table can be ordered alone or with our Keyboard Shelf. (CT-KBS)

Dimensions: 38" wide x 28" deep x 27/30" high (specify height)

54" Computer Desk (CD-54) This desk has panel sides and front instead of trestle legs like our computer tables. Available with any computer table add-ons or alone.

Dimensions: 54" wide x 30" deep x 30" high.

Printer Table (PT) Same design and construction as our computer tables. Middle shelf holds full box of printer paper and feeds through slot in table top. Available in heights matching with our computer tables.

Dimensions: 28" wide x 25" deep x 27/30" high (specify height)

Computer Table Add-Ons:

(CT-KBS) Computer Table Keyboard Shelf—Attachable under desk top and provides in/out sliding shelf for keyboard.

(DRW) Single Drawer—Attachable under desk top. Positive stops. Each drawer holds 14 "10 pack disk boxes".

(2-DRW) Two Drawers—Attachable under desk top. Positive stops.

(BB-D) Bread Board—Pull out work surface built into drawer cabinet.

(BB) Bread Board Alone—Pull out work surface separate from drawers. Provided with hardwood track attachable under desktop.
